

PRELIMINARY AMENDMENT
U. S. Application No. 09/819,612

REMARKS

Entry and consideration of this Amendment are respectfully requested.

To the extent Cane includes an archive file, the archive is merely used to reduce the size of back up memory requirements. By contrast, the claims of the application provide update information, such as for recovery. The claims are patentable over cited art for at least these reasons.

Respectfully submitted,

Cameron W. Beddard
